POS for your store together.

The Mustang Charcoal Grill Gourmet 57 is a high quality charcoal grill with several impressive features. The 57cm grill surface allows you to grill large amounts of food to meet the needs of larger parties.

With good ventilation control and adjustable heat, the Mustang Charcoal Grill Gourmet 57 provides an optimal grilling experience that results in excellent grilling results.

The well-designed and sturdy ash collector facilitates cleaning after use as you can quickly pull the ash from the coals into the container and empty it into a garbage bag.

In addition, the Mustang Charcoal Grill Gourmet 57 has a built-in option to support accessories such as pots, pizza stones and grill plates. Thanks to the hole in the center of the grill grate, you have the possibility to place accessories there (which, however, are sold separately).

Unfortunately, the Mustang Kolgrill Gourmet 57 has a thin stainless steel grill grate that makes cleaning difficult. However, there are many grills that use this type of grate and the same problem exists with all of them. The advantage, however, is that they do not rust, which allows for more aggressive cleaning.
